Please describe the color of your home or sampled structure and the characteristics of the surrounding landscape. (i.e., corn field or woods, on the south side of property, on hilltop, near water, or highway, etc.)

Please draw a simple sketch of the structure indicating the position and highlight any landscape features.

### Protocol

1. Count the number of adult brown marmorated stink bugs on each side of your home once per day between 2:00PM – 6:00PM. If possible, please try to consistently count at the same time each day.
2. Record the time and the total number of adult stink bugs you observe on each side of your home (or other designated building) on the data sheet below. If you miss a date, leave the data blank.
3. Return your data to us via mail, email or fax after October 15, 2013.

Sample Date	Sample Time	Total # North-Facing (SIDE 1)	Total # East-Facing (SIDE 2)	Total # South-Facing (SIDE 3)	Total # West-Facing (SIDE 4)
